Description:

Review Human Action says it all. In this towering masterwork, Mises makes the case for limited government and a free society, pointing out the inseparability between freedom and free enterprise - that you can't have one without the other. -- *William H. Peterson, adjunct scholar, Heritage Foundation, Washington, D.C.*

It should become the leading text of everyone who believes in freedom, in individualism, and in the ability of a free-market economy not only to outdistance any government-planned system in the production of goods and services for the masses, but to promote and safeguard . . . those

intellectual, cultural, and moral values upon which all civilization ultimately rests. -- *Henry Hazlitt, Newsweek* --This text refers to an out of print or unavailable edition of this title.

From the Publisher The Scholar's Edition is the pride and joy of the Ludwig von Mises Institute. Since our founding in 1982, we had wanted to issue an edition of *Human Action* in an edition worthy of its contents.

Three factors came together to make it essential this year: the 50th anniversary of the book, the discovery that changes and omissions in the 1963 and 1966 editions were more extensive and deleterious than had previously been known, and the unearthing of archives at Yale University and Grove City College that were used in the preparation of the introduction.

We spared no expense with this book, using the finest binding, paper, and printing available. Everyone who has purchased it has been astonished at its quality and sheer beauty. At last, with this Scholar's Edition, the master's great work is restored for the ages.

Murray N. Rothbard had it right when he said of the 1949 edition: "Every once in a while the human race pauses in the job of botching its affairs and redeems itself by producing a noble work of the intellect.... To state that *Human Action* is a must' book is a great understatement. This is the economic bible for the civilized man."

The Scholar's Edition is printed on stunning, pure white, acid-free Finch Fine 50 lb. paper; carefully set in the reading and beautiful Janson typeface, including the 1954 index, the most comprehensive ever done; covered in spectacular dark azure Odyssey cloth from Prague, the finest natural-finish, moisture-resistance book fabric in the world; secured by the finest caliper Binders board; protected by an impressive slipcase from the famous Old Dominion company; graced with antique-soapstone endpapers from Ecologic Fibers; casebound with the strongest Smyth-sewn signatures; fitted at head and foot with silken endbands, thick wrapped for durability; complemented with a double-faced, satin-finish ribbon marker; stamped with brilliant, non-tarnishing gold foil from Japan's Nakai International; and produced at R.R. Donnelly's famed Crawfordsville Bindery, where's America's finest books are assembled.

All told, The Scholar's Edition is ready for a lifetime or two of use. --This text refers to an out of print or unavailable edition of this title.
