Description:

Interactive writing is a dynamic, unscripted instructional method in which the teacher and students work together to construct a meaningful text while simultaneously discussing the details of the writing process. Together they plan, compose, and review text in a variety of genres. The 'interactive' piece involves group collaboration in planning and composing the writing through guided conversation and a unique 'sharing the pen' technique where students do the actual writing.

Interactive writing harnesses the natural interactions teachers have with their students as they compose a writing piece. It allows for real-time differentiation and tailored scaffolding. Interactive writing fits within any writing curriculum and can be adapted to your classroom's technology levels.
