"David Hoffmann has produced an herbal reference masterpiece. This is one of the most comprehensive and detailed reference books to be produced in many years and will become one of the standard texts for professionals and researchers. I will place it next to my desk with my most referenced books."

Mark Bickerton, founder and executive director of the American Botanical Council, editor of *Herbalists*, and vice chair of the Canadian Council on Integrative Therapeutics. *Journal of Herbal Medicine and Therapeutics*

"David Hoffmann has written himself. This text provides a depth of knowledge that is truly needed by the herbist, the physician, and the pharmacist in order to understand how to use herbal medicine safely and effectively. Also an excellent resource to educate patients about the many herbal remedies possible."

Shawn Stearns, M.D., dean of the Herbal Therapeutics School of Botanical Medicine and chair of the Ad Hoc Review Committee for the American Herbalists Guild

"Hoffmann beautifully blends science with his very holistic approach to herbal healing, depicting a new gift for making chemistry and physiology easy to understand. He not only suggests herbs and doses, changes to treat many conditions but explains why they work. Such knowledge will both empower and help ease in understanding how they can choose the most effective and safe herbs. A logical like an important book for herbists in the medical world."

Karen Kivett, director of the American Herb Association

"Hoffmann illustrates the many contributions of developing a holistic herbal medicine protocol and makes clear that herbal medicine is a well-developed discipline that is ever more dynamic in the research continues to grow. *Medical Herbalism* is an endeavor that will likely become a staple in an educational text and an indispensable reference for many."

Thomas L. Lister, M.D., Director of Patient

"I consider David Hoffmann one of the most original and brilliant herbists of our time, who deals with the complexity of thought and is able to bring the rest of us. The author of one of our finest herbal classics, *The Complete Illustrated Herbal*, David's ambitious undertaking of his latest new book provides us with an another exceptional look on herbs that merge art, science, and conversation into a system of holistic herbist for the times. This will be a valuable book for practitioners of herbal medicine as well as for other medical professionals."

Richard G. Lippman, president of United Plant Users and author of *Herbal Medicine: A Practical Approach*

"Medical Herbalism provides a valuable, essential, systematic approach to Western herbal medicine among from most texts. A great contribution to the herbal literature."

Ben Trevis, herbist and executive director of the American Botanical Council

## Description:

A foundational textbook on the scientific principles of therapeutic herbalism and their application in medicine

- A complete handbook for the medical practitioner

- Includes the most up-to-date information on preparations, dosage, and contraindications
- By the author of *The Complete Illustrated Holistic Herbal*

*Medical Herbalism* contains comprehensive information concerning the identification and use of medicinal plants by chemical structure and physiological effect, the art and science of making herbal medicine, the limitations and potential of viewing herbs chemically, and the challenge to current research paradigms posed by complex plant medicines. It also includes information on toxicology and contraindications, the issues involved in determining dosage and formulation types for an individual, guides to the different measurement systems and conversion tables, and the pros and cons of both industrial and traditional techniques.

With additional sections devoted to the principles of green medicine, the history of Western Herbalism, the variety of other medical modalities using medicinal plants, an extensive resource directory, and a discussion of treatments organized by body system, *Medical Herbalism* is the comprehensive textbook all students and practitioners of clinical herbalism need to develop their healing practices.
