

[PDF] Molecular Biology Of The Cell

Bruce Alberts, Alexander Johnson, Julian Lewis, David Morgan, Martin Raff - pdf download free book

Books Details:

Title: Molecular Biology of the Cell
Author: Bruce Alberts, Alexander Joh
Released:
Language:
Pages: 1464
ISBN: 0815344325
ISBN13: 9780815344322
ASIN: 0815344325

Description:

As the amount of information in biology expands dramatically, it becomes increasingly important for textbooks to distill the vast amount of scientific knowledge into concise principles and enduring concepts. As with previous editions, *Molecular Biology of the Cell*, Sixth Edition accomplishes this goal with clear writing and beautiful illustrations. The Sixth Edition has been extensively revised and updated with the latest research in the field of cell biology, and it provides an exceptional framework for teaching and learning.

The entire illustration program has been greatly enhanced. Protein structures better illustrate structure-function relationships, icons are simpler and more consistent within

and between chapters, and micrographs have been refreshed and updated with newer, clearer, or better images. As a new feature, each chapter now contains intriguing openended questions highlighting “What We Don’t Know,” introducing students to challenging areas of future research. Updated end-of-chapter problems reflect new research discussed in the text, and these problems have been expanded to all chapters by adding questions on developmental biology, tissues and stem cells, pathogens, and the immune system.
