Description:

About the Author National Geographic is a recognised authority in mapping excellence. For 119 years the Society's maps have helped spread geographic knowledge to people around the world. A multi-million-dollar database allows National Geographic to combine the latest data gained by space-age technology with innovative digital mapping techniques to create state-of-the-art political, physical, and thematic maps. Meticulous research and attention to detail have established a

standard of achievement that is second to none.
