**Description:**

When the Ford Motor Company needed a new car aimed at the youth market of the 1960s, it created the instantly-popular Mustang. When it decided to turn the Mustang into a true sports car it turned to Carroll Shelby. And when Shelby needed an engineer to develop what would become the classic

Mustang GT350 he hired Chuck Cantwell.

In *Shelby Mustang GT350: My Years Designing, Testing And Racing Carroll's Legendary Mustangs* Chuck Cantwell delivers a unique first-hand account of his years at the Shelby American company. Working alongside Shelby and a dedicated team, he succeeded in producing a car that was an immediate success on the race track and an iconic muscle car whose reputation remains unmatched after more than half a century.

On a subject as popular as the GT350 new and definitive information is hard to come by, but that is exactly what Chuck provides. He shares fresh technical details, never-before-heard anecdotes, and corrects popular misconceptions about the GT350's origins and development. Chuck also covers his work on later cars like the GT500, as well as his critical role with the Shelby racing team in the Trans-Am series. His month-by-month narrative is supported by scores of photographs, including many from his own collection and those of other Shelby insiders, as well as technical drawings and company memos. Additional background information, data, and details are provided by co-author Greg Kolasa, an automotive historian who has spent decades researching and writing about Carroll Shelby's cars.

*Shelby Mustang GT350* is a vivid, fact-filled account of how the man Carroll Shelby dubbed Mr. GT350, led the effort to create an American automotive legend. It's precisely the book that Shelby Mustang owners and other enthusiasts have been waiting for.
