Description:

About the Author

Scott Berkun worked on the Internet Explorer team at Microsoft from 1994-1999 and left the company in 2003 with the goal of writing enough books to fill a shelf. The Myths of Innovation is his second book: he wrote the best seller, The Art of Project Management (O'Reilly 2005). He makes a living writing, teaching and speaking. He teaches a graduate course in creative thinking at the University of Washington, runs the sacred places architecture tour at NYC's GEL conference, and writes about innovation, design and management at <http://www.scottberkun.com>.
