**Description:**

**About the Author** Neal Ford is an Application Architect at ThoughtWorks, a global IT consultancy with an exclusive focus on end-to-end software development and delivery. Before joining ThoughtWorks, Neal was the Chief Technology Officer at The DSW Group, Ltd., a nationally recognized training and development firm. Neal has a degree in Computer Science from Georgia State University specializing in languages and compilers and a minor in mathematics specializing in statistical analysis. He is also the designer and developer of applications, instructional materials,

magazine articles, video presentations, and author of the books *Developing with Delphi: Object-Oriented Techniques* (Prentice-Hall, 1996), *JBuilder 3 Unleashed* (Sams, 1999) (as the lead author), *Art of Java Web Development* (Manning, 2003), and *No Fluff, Just Stuff Anthology: The 2006 Edition* (editor and contributor). His language proficiencies include Java, C#/.NET, Ruby, Object Pascal, C++, and C. His primary consulting focus is the design and construction of large-scale enterprise applications. Neal has taught on-site classes nationally and internationally to all phases of the military and to many Fortune 500 companies. He is also an internationally acclaimed speaker, having spoken at numerous developer conferences worldwide.
